

WELCOME!

We would like to welcome you to our office and thank you for selecting us to help you with your oral health needs.

OUR PHILOSOPHY

TO PROVIDE SERVICE BEYOND EXPECTATION FOR OUR PATIENTS. By doing so we will present to each person ideal comprehensive dentistry. Every patient deserves to hear what is best to maintain a healthy mouth as well as a confident smile. They have the right to choose but we have the obligation to present and then provide the treatment with professional excellence. We will never perform this treatment until we inform you so there will be no surprises or financial burdens for our patients. We are committed to excellence as we are serving people through dentistry.

MUTUAL GOALS

The mouth is our means of eating, speaking, and showing emotion. It is also a major factor in our general appearance. In the diseased state it can cause generalized poor health, pain, and infection. Most people want to be comfortable, attractive, able to chew well, and keep their own teeth all of their lives. All of these things are possible in this office, but it takes careful planning. Therefore, we try to establish mutual long-range goals and begin working toward them.

PRIORITIES

Emergency problems are cared for first, then we can plan for any reconstructive work your mouth may need. A thorough examination, medical history, radiographs, and sometimes plaster models of your mouth are essential for a proper diagnosis. Only then will we begin a mutually acceptable restoration program. Our goal is to fix each of your teeth so we have the least chance of ever having to repair it again.

APPOINTMENT TIME

Extended, well-planned appointments usually mean fewer trips to the office resulting in less time lost from work or school. We are able to accomplish more treatment in less time.

It is very important that the patient understands that this time is set-aside specifically for him/her and that appointments should be made only at times when they can definitely be kept.

FEES AND PAYMENT POLICY

In an effort to keep dental costs down while maintaining a high level of professional care we require payment at time of service unless prior arrangements have been made.

Accounts outstanding more than 30 days will accrue interest at 1.75% per month or 21% per year.

DENTAL INSURANCE

Or "Dental Assistance", as it should be called, is designed to help pay for part of the cost of dental treatment. Your employer has made

this coverage available to you and we will do our best to help you maximize its benefits. Dental insurance is not designed to pay all of the cost of treatment but rather to be a partial aid. Your insurance contract is between you and your insurance company. The type of benefits in your contract depends on what your employer has negotiated with his/her company and the amount of money you wish to pay in premiums.

SERVICES

In addition to comprehensive general dental services such as fillings, crowns, and root canal treatment, our office has special training in:

Reconstructive Dentistry
Braces
Implants
Laser Dentistry
Jaw Joint Problems

*Thank you for
allowing us to help
you with your oral
health needs!*
