*Welcome to Our Whitening Spa*

I understand that fillings and crowns *will not* whiten. I am aware that tooth whitening can cause teeth to be temperature sensitive. In some cases the sensitivity can be extreme and prolonged. I may have white spots on my gums immediately following whitening. I understand and accept all of the above risks and choose to proceed with the whitening treatment. I understand that tooth whitening is a cosmetic treatment only and is not to be done in the place of a proper exam, x-rays or diagnosis for further treatment of any dental issues.
